

JASON ADKINS

The Darkened Enlightenment, 2023

(40" x 30")

\$2,000

Black Chrome Fabric on Panel

Jason Adkins Bio

Jason Adkins is an artist based out of Phoenix, AZ. His paintings, designs, and sculpture are collected by art enthusiasts, art collectors, and interior designers. His works, and their abstracted offshoots, reference abstract expressionism, yet contemporize themselves and bury any nostalgic notion by way of unparalleled application techniques and tools. In turn, these visual and energetic fields, unembellished at first glance, thus become complex. His works are in the collection of the Frederick R. Weisman Art Foundation (Malibu, CA), the Phyllis and Ross Escalette Permanent Art Collection at Chapman University, UNLV Marjorie Barrack Museum (Las Vegas, NV), and the Fours Seasons in Scottsdale, AZ, as well as others. Additionally, his print work is available through Restoration Hardware. In up and coming news, he will be in the Nov/ Dec 2023 issue of *Luxe Interiors + Design* magazine, and his work will be seen in the show *'Obliterated'* on Netflix premiering Nov. 30th.
