\$4,600

Alicia Piccolo

Artist Statement

Painting allows me to seek harmony and balance through the integration of what I experience in my inner and outer worlds. I start with thinking about color and work in organic layers. Each layer directs the next, keeping me in the moment while creating. For me, painting is a perpetual state of taking risks and letting go. I find great freedom in that. When observing my work, many say that they sense a lot of energy and calm at the same time.
