

Totem 7 Pendant

MODEL # 10690

Using rich metal and improvements in lighting technology. Totem re-imagines designs from the 1950s and hearkens back to early American modernism. Consists of stacked and adjustable oval and trapezoid cast formed shapes. In the center of each cast form is a round acrylic orb which conceals an LED lamp. Choose from a variety of finish combinations. Also specify cast form compositions: all ovals, all trapezoids, or a mix. Customize the direction of the light by swiveling the cast forms left and right.
