

PROJECT:

DESCRIPTION:

The Arcus collection has been developed with configuration and customization in mind. It utilizes a modular linear LED body available 16", 24" and 32" lengths that allow the user to configure the fixture with supporting attachment components to fit the specific intended use. The Arcus collection can accommodate table, floor, wall, and ceiling applications.

The Double-Stem Floor Lamp is meticulously crafted in solid brass, steel, and kiln formed glass. Shown here in blackened bronze finish, configured with a 16" and 32" LED body with hand finished glass shades.

The fixture comes standard at 70-inch tall and can be customized. The kiln formed glass shades provide a soft, ambient glow, adjustable for any room or occasion.

DIMENSIONS:
70" h x 10" w x 6" d

MATERIALS:
Solid Brass, Steel, Kiln Formed Glass

WEIGHT:
20 pounds

CHOOSE THE METAL FINISH:

- Blackened Bronze (pictured)
- Oil Rubbed Bronze
- Aged Bronze

SPECIAL ORDER FINISHES (25 % UP-CHARGE)

- Polished Brass
- Polished Nickel
- Polished Chrome

All finishes are hand applied and subject to slight variations in tone and color. All finishes are sealed with a hand applied wax protective layer or clear coat depending on base metal.

CHOOSE THE GLASS COLOR:

- Snow
- Cloud (pictured)
- Vapor

Glass shades are hand shaped and sandblasted to a matte finish and subject to slight variations.

ILLUMINATION:

LED Linear Strip 24VDC 2700K 90+CRI
3000K and Dim to Warm Available
Dimmable with LED compatible dimmers.

WATTAGE:

22 watts

REMARKS

Handle with care during setup and moving.
For indoor dry applications only.

12 week lead time standard. If you need a rush order just give us a call and we will do our best to accommodate.
