

CAMBER BED

Get carried away...in bed.

One generous arc of the headboard evokes a billowing sail and a gentle cradle. Extended arms reach beyond the mattress making a grand gesture of embrace. The Camber Bed creates a welcoming place with minimal effort. The slatted platform with its shin-friendly corners is completely upholstered, legs and all.

CAMBER BED

Available only as a platform with either a European slat system of flexed, suspension slats for comfort and airflow or with simple fabric-covered panels. The Platform extends about 2" beyond mattress at the sides and at the foot.

Headboard heights can be adjusted to accommodate mattress thickness.
