OSO INDUSTRIES

# OPEN BAR

Our new spin on the classic bar cart, this piece is cast in our Crete finish with pieces of polished, crushed clear glass. It features grey mirrors on the top and bottom shelves, and a mirror on the underside of the top shelf that create an infinite reflection inside. The Open Bar glides on recessed locking casters for cocktail mobility. Offered in two heights, 23.5" (shown below) and 29.5", the Open Bar is just the right height for all uses.

## CONCRETE COLORS

Our concrete furniture line is available in any of our 12 standard cast concrete colors. Shown at left are our signature cast concrete finishes, which are honed and brought to a high polish. Custom colors can be made by request.
